LAOE CURTAINS A SPECIALTY. John Eyraud - - - Proprietor.

The artist who is in search of attitudes descriptive of torture, and poses depicting suffering, need not go to the Christian martyrs of old. If he could only see through the walls into tens of thousands of homes all over this land, he would see women undergoing tortures in silence without complaining, before which the brief ordeals of the martyrs pale into nothingness.

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill health and pain because of disorders and derangement of the delicate and important organs that are distinctly feminine. One of the worst effects of troubles of this kind is upon the nervous system. The tortures so bravely endured completely and effectually shatter the nerves. Dr. Pierce's Favorite Prescription is an unfailing cure for all weakness and disease of the feminine organism. It makes it strong and healthy. It allays inflammation, heals ulceration and soothes pain. It checks exhausting drains and tones and builds up the nerves. It fits for wifehood and motherhood. Good medicine dealers sell it and have nothing just as good."

"Since my last child was born, thirteen years ago, I have suffered from uterine trouble," writes Mrs. Pauline Darrow of Jefferson Co., Tenn. "I consulted several doctors and took much medicine, but found no relief. I had very bad health for twelve years. Every month I was in bed a week before the monthly period and a week after. I was obliged to keep in bed for four months last summer, and I looked like a corpse. I lost twenty-five pounds in four months. I was coughing so much I was considered in consumption. I suffered severely from pains in my back, bearing down pains in the rectum, chills and cold sweats. After taking four bottles of Dr. Pierce's Favorite, my cough stopped, and after six bottles of Dr. Pierce's Favorite Prescription my periods became regular and were passed without pain. Now I am healthy, more so than ever before. My neighbors are surprised to see me in such good health after having seen me so low."

Constipation causes and aggravates many serious diseases. It is speedily cured by Dr. Pierce's Pleasant Pellets.

Migrating Birds.

The distances over which birds migrate vary between wide limits and are often surprisingly great. The bobolinks, which rear their young on the shores of Lake Winnipeg and go to Cuba and Porto Rico to spend the winter, twice traverse a distance exceeding 2,800 miles, or more than a fifth of the circumference of our earth, each year. The kingbird lays its eggs as far north as the fifty-seventh degree of latitude and is found in the winter in South America. The biannual pilgrimages of the little redstart exceed 8,000 miles and the tiny humming bird 2,000.

A Money Saver.

When you flip a coin with the other fellow and win, don't stop to argue with the other fellow as to whether "dates is heads" or "dates are heads" is correct. Go on flipping till you begin to lose. Then start up the argument. This money saving device is not patented.—St. Louis Post-Dispatch.

Not Up on French.

French Vagrant—Pouvez vous me donner quelque chose pour manger, madame?

American Lady—You impudent scoundrel, how dare you call me names like that? Why, I could have you arrested if I chose.—Ohio State Journal.

Must Have Been Born Lucky.

"How did you make out with that effort to break your uncle's will?"

ADVERTISING RATES.

From and after this date the JOURNAL advertising rate will be as follows for all new business. No deviation from this rate will be given:

One line single col. display per month	\$ 00
Two line single col. display per month	5 00
Additional single column per month	5 00
Two line double column per month	7 50
Additional double col. space per month per inch	2 50
Professional cards per month	2 50
Heading local notices, per line, first insertion	1 00
Headline, second insertion up to two weeks, per line	3 00
Over two weeks and after the first insertion, per line	5 00
Funeral notices and cards of thanks per line, first insertion	1 00
Each additional insertion per line	2 50
Advertisers showing of all kinds and entertainments will be charged for at the rate of \$8.00 for a week's advertising, including a four-line display advertisement.	

LEGAL ADVERTISING.

Assessment notices \$6.00
Annual meeting notices 5.00
Notice of appointment of administrator 5.00
For all other advertising legal rates will be charged.

SATURDAY, DECEMBER 30, 1899

BRITAIN AND GERMANY BUY OUT PORTUGAL.

It is reported that Great Britain and Germany have purchased the sovereign right of Portugal to its colonial possessions in Africa. It is stated that Germany has agreed to pay for its share of the territory disposed of 25,000,000 marks. The sum that Great Britain will pay for its share of the property, human beings and square miles, is not stated. It is claimed that the treaty has been secretly under consideration for some time and would not now have been known had it not been to the interest of England to make it known at this time. The Boer war and the position of England respecting the conquest of the Transvaal and Orange Free State demanded, if it is true as reported respecting the right of Portugal to its African possessions, that notice of the treaty be given to other nations. Should it be true that Portugal has sold its African possessions, the South African republics will be placed in a position that will very much embarrass them in maintaining their side of the war contention for liberty.

The purchase will give to England Delagoa bay which is the commanding item in the catalogue of items that make up the whole there is included in the purchase and sale of Portuguese territory in Africa. Delagoa bay is within 300 miles of Pretoria, the Transvaal capital. The purchase will place England in a position to cut off all war supplies to the Boers and will give it a military position in the rear of the Boers now in Natal and other parts south of Transvaal to the Transvaal country for its defense, which will effect the relief of Ladysmith, Kimberley and other beleaguered places by the Boers in Natal. These changes that the Boers will be required to make to meet new positions in the possessions of England has the appearance of hand writing on the wall for the republics.

The transfer of its part of the Portugal swag will place that power where its African possessions will be secure against any attack from other robbers possessed with like ambition as is presented to the world by Great Britain, but since Uncle Sam has become member of the robber gang we are not in a position, such as we occupied in the better days, of the republic, to scold.

We made a short review in yesterday's JOURNAL of the right claimed by England to arrest on the high seas American merchantmen whose cargoes were consigned to a neutral port in a neutral country. Should it be that the reported transfer by Portugal is correct, there is in the convergence an explanation for the high-handed work of British men-of-war in the arrest of American merchantmen near to Delagoa bay; but a secret treaty that is in the interest of one or more of the parties to the treaty is not binding in its operation against nations, and their merchant marine, who have no notice of the terms of the treaty, for which reason England is not in a position to insist upon the Portuguese, German and English treaty as a protection against the consequences that attach to a seizure of our merchantmen while engaged in legitimate trade with countries occupying to the commercial world a neutral position.

Irrespective of international law or treaty rights under the treaty of 1794, common sense presents a conclusion to an intelligent world that no secret doings by any nation or nations can have binding force upon nations acting in good faith who have no knowledge of the existence of conditions which have been kept secret. The conditions of a secret treaty take the relation to nations who know nothing about the conditions that would be given to non-existing relations presented upon a mere claim as an excuse for wrongdoing.

It is a part of the policy of Great Britain when in a tight place to do, irrespective of the rights of others, whatever may be required to accomplish its purpose, and the arrest of American merchantmen by British ships of war at this time, in South African waters, is evidence that Britain has not abandoned its ancient policy of "get out of my way or I will run you down," without regard to the rights of the party who is run down.

It was the get out-of-the-way policy that brought to a forcible fact the war of 1812, when Britain was exercising, under claim of right, its run-down policy to board and search American vessels and take from American decks seamen who retained a British or Irish accent.

PERSONALS.

W. H. A. Pike of Wadsworth was one of yesterday's visitors to Reno.

G. W. Jones of Winnemucca is making a brief sojourn in this city.

Mrs. Eaton of Virginia city spent yesterday in Reno.

M. Nelson of Lovelock is a recent arrival.

W. S. Sattin, wife and children of Catherine, New York, arrived Thursday and registered at the Arcade.

Mr. and Mrs. J. R. Ryan were in town yesterday between trains. They were on their way from San Francisco to their home in Virginia.

Rob E. Tally, the efficient assayer at the Reno reduction works, has resigned his position.

E. E. Copeland has returned from a professional visit to Plumas county.

F. C. Dickinson and Miss Claire Dickinson leave to-day for Red Rock.

J. F. Haley of the JOURNAL force returned last night, having been summoned from San Francisco by the long distance telephone.

Miss Georgia French returned to her home in Silver City yesterday.

Imprisoned in Mexico.

Captain Cox has been appealed to for aid by a Nevada boy who has gotten himself into trouble down in Mexico.

His name is George W. Campbell. He enlisted from Tuscarora in Troop M, Torrey's Rough Riders.

Campbell had an altercation with a drunken police officer whom he knocked down.

For this breach of the peace he was thrown into jail. In the same prison are three other Americans who have appealed in vain for aid through the United States consul.

Campbell has not had a trial and has no reason to expect that the authorities will give him a hearing.

A Suit Begun.

Timothy and Daniel, both surnamed O'Keeffe, have gone to lawing.

It appears from a complaint filed in the County Clerk's office yesterday, that Timothy owns the property on the northeast corner of Plaza and Virginia streets, known as the Grand Central hotel.

Daniel is in possession of the property by virtue of a lease, but Timothy alleges that there is about \$240 due on the lease.

The latter wants judgement in this sum and costs. He also asks that Daniel be ejected from the premises, and furthermore he also asks damages in the sum of \$100 for an alleged grievance.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work."

This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people.

Every bottle guaranteed. Only 50cts. Sold by S. J. Hodgkinson Druggist.

New Game Birds.

C. P. Ferrel returned from Oregon Thursday evening, where he has been on a visit to his parents. His brother accompanied him on his return.

Mr. Ferrel has made arrangements to receive a number of Chinese pheasants next spring, which will be used as a nucleus for stocking this State with that game bird.

A stuffed sample is now on exhibition at the Palace bakery.

Woodcraft Meeting.

A number of members of the local camp of Woodmen of the World went to Glendale last evening to attend a stereopticon and graphophone entertainment given there by Lecturer Campbell of the order.

Will Celebrate.

On New Year's day both banks will temporarily suspend, the butchers will lay down the cleaver and the saw at the stroke of noon, and the JOURNAL force will go prospecting.

To the Upper Bar.

A motion for a new trial in the case of E. F. Swinney versus W. H. Patterson having been refused, the plaintiff yesterday filed notice of appeal to the Supreme Court.

Bought a Hotel.

Jerry Correco of this city has purchased the Clairville hotel from Charles Roberts. This is one of the best paying hosteries in the mountains of California.

Far Reaching Reputation.

The Riverside Mill company received an inquiry the other day from Virginia for Nevada wheat in carload lots. The grain is wanted for making a fine grade of germs.

Right for Once.

Piqued at having failed to procure the particulars of the Dupray wedding Thursday, the afternoon paper vents its ire.

It's right for once. There should be no secrecy made of weddings of Californians, no matter what their social or business standing, who would be deprived of the pleasure of cohabiting if they could not evade the righteous laws by slipping over the border.

Public officials and hotel keepers who refuse information to the press about these clandestine tie-ups ought to be given cause for instituting \$10,000 libel suits.

Porter and Cheek are good fellows of their sort—but they should be made to realize that the press is mightier than the fee.

Later—Since the above was in type the writer experienced a change of heart. He abjectly apologizes for his rude language. Cause: Invitation to a supper in honor of another clandestine marriage.

Conflicting Dates.

Said a chronic kicker to a knight of the quill yesterday:

"We Renotes would be all right with considerable repairing. One of the many things we do is to set the dates for our social and religious gatherings before finding out if the time we choose has been preempted by some other event."

"About five nights in the weeks there is nothing happening that I wish to attend, while on the sixth evening there is a church social, a party at the house of one of my friends, a blowout at the club, installation at the lodge and a good play at the opera house."

Monday Night Festivities.

Next Monday night is the date set for the social event of the season, the grand colonial and historical ball, to be given by the Wheaten.

The floor will be occupied exclusively by those in costume till 11 P. M. when those not in costume will be given an opportunity to dance. This is done that all may "get their money's worth."

Little Nine Cook, the child who created so much favorable comment in "San Francisco" a few years ago by her wonderful dancing, singing and acting at the leading play houses of that city, will probably take part in the festivities of the evening.

Good Rock.

The latest assay from the Copper Queen mine above town was \$70 a ton in gold, silver and copper. The reports from this property seem inordinate. If a word that should be stricken out of the dictionary—if a forty foot ledge that carries \$50 a ton on the surface and which crops for a thousand feet, increases in value to \$70 at a depth of 15 feet, what will it show a hundred feet down?

Nevada Boy Killed.

Captain Cox received a message yesterday stating that a former member of his Troop M, Torrey's Rough Riders, had met instant death by falling down a mining shaft in Wyoming.

The deceased's name was Richard De Forrest. He enlisted from Lovelock and was at the time of his death engineer of the hoisting works at the mine.

A Card.

Parry Bros., having disposed of the agency of the Wieland brewing company for the State of Nevada to Otto G. Benschuetz, announce that all accounts due the agency will be collected by Mr. Benschuetz and that he is responsible for all accounts against the agency.

Parry Bros.
23d1w (By R. W. Parry).

Bismarck's Iron Nerve.

Was the result of his splendid health, indomitable will and tremendous energy are not found where Stomach Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at Hodgkinson's drug store.

California Wedding.

Mr. _____ and Miss (or Mrs.) _____ were married at the Riverside last evening. This is the size of the information extracted from the clerk.

He Wasn't "Sonked."

"When I go over to the old country I am going to get a lot of clothes to bring back with me," said a well known Windsorite, who went abroad recently.

"Oh," said his bearer, "if that is the case, I have a brother who is a tailor in London, and I will give you a letter of introduction and write him telling him to use you right."

In course of time the traveler stepped into the tailor shop in London and presented his letter of introduction. He got a warm handshake from the tailor, who said he had received a letter from his brother telling of the traveler's expected arrival, but could not understand part of the letter. The letter, when produced, read:

"Dear Brother—The bearer, Mr. _____, is from our place and wishes to get a lot of clothes in London. He has all sorts of money. Soak him. Yours affectionately."

The part of the letter that could not be understood was the concluding phrase. The traveler of course understood the Americanism, but managed to keep his face straight while he gave it a favorable construction. He saved the laugh until he could have it on his American friend. —Chicago Inter Ocean.

Prevented a Tragedy.

Timely information given Mrs. George Long of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery.

One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed.

Trial bottles free at S. J. Hodgkinson's drug store.

Volcanic Eruptions.

Are grand, but Skin Eruptions rob life of joy. Buckler's Arnica Salve cures them; also Old, Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped hands, Chilblains.

Best Pain cure on earth. Drives out pains and aches. Only 25c a box. Cure guaranteed. Sold by S. J. Hodgkinson's druggist.

Sparkling sauterne by the glass or bottle at Thayer's. Try it. Equal to champagne.

used by millions of mothers for their children
when teething. If disturbed at night
and broken of your rest by a sick child suf-
fering and crying with pain of cutting teeth
send at once and get a bottle of Mrs. Wins-
low's Soothing Syrup for children teething.
It will relieve the poor little sufferer imme-
diately. Depend upon it mothers there is
no mistake about it. It cures Diarrhoea
regulates the Stomach and Bowels, cures
Wind Colic, softens the gums, reduces In-
flammation and gives Ton and Energy to
the whole system. Mrs. Winslow's Soothing
Syrup for children teething is pleasant to
the taste and is the prescription of one of
the oldest and best female physicians and
nurses in the United States. Price 25 cents
a bottle. Sold by all druggists throughout
the world. Be sure and ask for "Mrs. Wins-
low's Soothing Syrup."

French Tansy Wafers.

The world's famous remedy for painful
period and irregularities, regardless
of cause, are never failing and safe.
The wafers are the married woman's
best friend. The only reliable female
regulator; imported Paris. Take no-
thing else but insist on the genuine, red
rappers, with our trade mark. La
France Drug Co., importers, 306 Turk
street, San Francisco.

NEWS OF THE SAGEBRUSH STATE

Brief Items Culled From Exchanges
From the Four Corners of
Nevada.

A board of officers has been ap-
pointed at the Presidio, San Francisco,
to investigate some shortages in the
accounts of the Nevada cavalry.—
Enterprise.

Prof. McDowell of the University
has received from Lieutenant Bram-
billa, now on the island of Luzon, in
the Philippine group, forty varieties
of hardwood grown there. They will
be used in giving instruction in for-
estry.

Indian Frank, the self-confessed
murderer of Mrs. Del Grosse and
child, may escape the gallows on ac-
count of the judge who passed sen-
tence failing to comply with the law
by sending the papers in the case to
the Governor.

Plate Indian hunters are slaught-
ering large numbers of deer in the Pine
Nut range back of Dayton.

BUMFOLD COUNTY.

Jack Carver and Miss Maud Miller
were married at Winnemucca.

Last month the greatest velocity of
wind reached in the State was at
Winnemucca, where it attained 75
miles an hour.

Two fourteen-horse teams arrived at
Winnemucca Wednesday from the
Rose Valley borax works with twenty-
one tons of borax.

A man named Sullivan was taken to
Winnemucca from Lovelock Wednes-
day and placed in the county hospital,
suffering from a broken leg. It ap-
pears that Sullivan left Lovelock three
days ago and went into the mountains
for a wagon load of wood. The horses
ran away and he was thrown from the
wagon and a leg broken. By crawling
around he managed to gather enough
wood to build a fire and save himself
from being frozen to death. The poor
fellow lay nearly two days before being
found by a searching party from Love-
lock, to which place the runaway team
had returned.

The case against Charles Emerson,
who slashed Chris Dible, Jr., in the
face with a razor, has been dismissed.

LINCOLN.

Near Pioche a few nights ago Mrs.
James Ryan stoned to death a wild-
cat which was playing havoc with her
chickens.

The Pioche Record says that careful
estimate, based on actual surveys and
samplings, made not once, but several
times, justifies the statement that the
Day mine alone contains between 300,-
000 and 400,000 tons of ore suitable for
shipment or working when rail com-
munication is completed.

ELKO.

The Governor has appointed M. H.
Wallace notary public.

Two young men named Steele and
Wright broke into a residence at Elko
on Christmas day, and have been
bound over to the grand jury.

STOREY.

Joseph R. Ryan has been re-elected
superintendent of the Hade & Norcross
mine. The company has a cash bal-
ance of \$6,000 in the treasury.

The Virginia board of school trustees
met Thursday evening and discussed
the matter of reducing the number of
teachers in the public schools. No
definite action was taken.

Richard Galligan, who had his arm
badly injured while working in the C.
& C. shaft, went to San Francisco
Wednesday for treatment.

DOUGLAS.

The Douglas county bank will open
its doors for business Tuesday morn-
ing at 10 o'clock.

The Courier says that while hunting
on Job's peak John Barrett and Frank
Brookless found a petrified canoe and
a petrified animal. (The JOURNAL advises
the numrods to go back when the snow
melts and see if they cannot find a
petrified lake in the immediate
vicinity.)

Assessment work has been done on
all the promising claims in Pine Nut.
If the water supply will justify it there
will be considerable development
work done in the spring.

Installation.

The following were installed as offi-
cers of Adah Chapter, No. 4, O. E. S.;
Thursday evening.

Mrs. Minnie D. Noyes, W. M.; Her-
man Werner, W. P.; Mrs. Clara Jam-
ison, A. M.; Miss Nellie Hymers, Secy.;
Mrs. Harriet Pinniger, Treas.; Mrs.
Ella Jones, Cond.; Miss Stella Web-
ster, A. C.; Mrs. Mary Stewart, Chap.;
Mrs. May Porter, Marshall; Miss Maud
Wheeler, Adah; Mrs. Lucy Larcombe,
Ruth; Mrs. Polly Martin, Esther; Miss
Francis Frey, Martha; Miss Belle Bul-
lock, Electa; Mrs. Nellie Werner, War-
den; Mrs. L. L. Crockett, Sentinel;
Miss Grace Ward, Organist.

'Nother Nuisance.

The Kronic Kicker, while returning
from lodge late last night, collided
with two garden gates that had been
left like the portals to Sheol, wide
open.

This is a common nuisance in Reno.
The gate that swings inward is the ex-
ception and the one that sprawls across
the sidewalk is the rule.

Next time the Kronic Kicker has oc-
casion to travel homeward after dark
he will take an axe with him.

Ring, Happy Bells
Across the Snow

Ring Out, Wild Bells!

Looking Forward.

EDITOR JOURNAL: In reply to your request to give my opinion as to the outlook for Reno for the coming year, I am pleased to answer that I consider it very promising. I have been informed by a number of our merchants that the Christmas trade of the year just closing has far exceeded that for many years previous. This of itself indicates that the New Year will open with the people generally in a more prosperous condition.

We are now beginning, I think, to realize more fully our wonderful natural advantages and to profit by them.

The people of Reno have as yet done but little in the way of organized effort towards accomplishing public enterprises, but a start upon this line was made this year and much good accomplished. The coming year should see greater interest in this direction and more substantial results. What other municipalities similarly situated have done can be accomplished here, and if the Improvement Association now organized is given generous support by the public a great deal of benefit should result from that source.

From present appearances the coming year will see quite a revival in the mining interests in our vicinity. Indeed, there are indications which point towards Reno being quite a mining centre during 1900. Peavine and Pyramid districts are again coming to the front after being neglected for nearly a quarter of a century. Many years ago a great deal of money was spent in these districts, and though good ledges were found which assayed well, they were not worked profitably, and finally were almost entirely abandoned. In the meantime great strides have been made in the reduction of ores, and a property that could not be made to pay a decade or two ago, can now be worked at a handsome profit. All that is now needed is to again interest capital in these districts, when paying propositions are sure to be developed. In this connection it is gratifying to note that agents of monied men are already on the ground looking over the situation. The coming year will doubtless see the Reduction Works busy smelting their own ores and in addition finding plenty of custom work to keep them busy.

Reno's superior educational advantages will from year to year attract larger numbers to our town, and as the State in general has been more prosperous the past year or two, it is reasonable to expect a larger attendance at the University from distant portions of our commonwealth than in the past. Reno can make no better investment than in promoting in every way possible her educational advantages, and in this connection the coming year should see steps taken towards the carrying out of the much talked of project of a free public library supported by the municipality.

The field of speculation is a wide one and I would not care to enter it much further, but it is reasonable to presume that the increased traffic on all railroads running into Reno will continue during 1900, and that our merchants will have a greater opportunity to extend their trade to neighboring points. What Reno needs most is lower freight rates, and, doubtless, she will have what she is entitled to in course of time, but this may not be in 1900.

FRANK H. NORCROSS, Secretary Reno Improvement Association.

Will Attract Capital.

About fifty cases of selected specimens gathered from the various parts of the State have already been shipped by the commissioners of Nevada.

No other State in the Union will have as large a variety of metallic ores of various kinds and nearly every specimen is of late development. Gold, silver, copper, cinnabar, cobalt, nickel, building stones, cement, fire clays, electro-silica, asbestos, graphite, plumbago, salt, sulphur, mineral soap, sulphuric acid, mineral paints, mica, coal, petrifications and other geological products found in Nevada will be displayed, and a general description of the conditions surrounding the deposits of the minerals products will be printed in the catalogue.

Transportation and facilities for extracting the metals will also be given, showing that the State produces the fluxes for reducing all refractory metals and the opportunities for producing the power for working the free milling ore.

With these object lessons properly exploited at Paris it will show to the world the advantages which Nevada, with her handful of people, has to offer investors who have capital seeking investment.

The mineral resources alone will be displayed by the commissioners, but all available literature will be distributed that is possible to obtain, showing the agricultural resources of the State, and, as Lovelock now has the record of producing the greatest number of tons of sugar beets to the acre, and the highest percentage of sugar in the product thereof known to the world, it cannot help but attract attention to the opportunities of Nevada in that line.

H. B. MAXSON, Paris Exposition Commissioner.

AT 12 o'clock this night eighteen

Building Boom.

EDITOR OF THE JOURNAL: In reply to your request for an article on the work of the building trades in Reno for the past year and the outlook for 1900, will say that the year just closed was one of the most prosperous Reno has enjoyed for a long time, if activity in building is a good criterion.

The houses that were erected were generally substantial, commodious and ornamental. They are not merely houses but homes. Repairing and remodeling were carried on extensively. Judging from the number of dwellings constructed and from the fact that at the beginning of the year houses to rent were as plenty as they are scarce now, I place the increase in population at not less than 300.

Below is a list, complete as I can give trusting to memory alone, of the construction work that was done in this city the past year:

The contracting firms of Caine & Schadler and W. A. Booth completed the handsome new Smith building.

Among other work performed by Caine & Schadler were the Litch house in Marsh's addition, a house for Prof. Cowgill in Connor's addition, the Mapes house, which they rebuilt into a modern structure. They rebuilt the Bender house that was burned and are now constructing a bridge across the Truckee in the west end. At present they are also at work on the Flanigan mansion, on Virginia street.

Willard Shaff put up a fine house for H. C. Cutting on Virginia street. He remodeled the Chambers building. The same contractor erected a dwelling for Prof. Charles Brown, and is now building a house across the river for O. L. Wright.

Bart Curtis put up a house for John Edwards Bray in Connor's addition. Paterson Brothers built a house for James Eason, in Connor's addition, and another for A. M. Beebe on Sixth street.

John Gulling erected a house for himself. C. Clough is putting up a brick stable for R. W. Parry.

This is a record that speaks for itself. By comparison of the figures given it may be estimated that the volume of trade in Reno the past year exceeded the twelve months preceding by about nine and eight-tenths per cent.

H. P. KRATS, Postmaster.

A party of five is being organized at Gardnerville to proceed to Cape Nome in the Spring.

Ring Out the Old Ring in the New

FLOOD-TIDE OF OPPORTUNITY.

Wm. McClure Gotwaldt.

"There is a tide in the affairs of men
That, taken at its flood, leads on to fortune.
Omitted, all the voyage of their lives
Is bound in shallows and in miseries."

To-night—the last night of the year—I stand
Upon the wave-worn cliffs and idly gaze
Across the heaving bosom of the deep.
Fair Luna rises, Venus-like, from out the waves;
A path of silver light leads out to sea.
Afar a steamer's curling line of smoke
And brave bark's swelling sail. Beneath my feet
The measured booming of the surf against
The base of granite cliffs.

Fit spot is this
For meditation. Here the chained soul quits
The narrow confines of its carnal cell
To hold communion with the spirit world.
These mortal eyes had erstwhile feasted not
Upon thy grandeur, Mother Ocean, yet
In dreams I've wandered on thy sounding shore,
Enraptured by the wild waves' melody.

To-night thy music is a mournful dirge.
The ebbing tide lays bare a sunken wreck,
All crushed and torn by tempest, reef and wave.
Once she had braved the elements and sped
On many a voyage with rich treasure lade
And oft had safely crossed the harbor bar.
Yet once her pilot bided ill his time
And waited till the tide had outward turned.
Clutched by the sands and pierced by hidden reefs,
She sank—a victim to the sea, a prey
To ungrasped opportunity.

To-night
A year is launched upon the sea of time.
At flood tide it can safely cross the bar
Outside the port of fortune. Pilot well.

Burke Bros. did a great deal of brick construction work, including the round house for the narrow gauge road. They also did the brick and stone work on the Quinn and Hartung block and on the electric light work.

George E. Holesworth remodeled the Shoemaker house now occupied by H. J. Thyes. He built a house for William Coppersmith on Fourth street and has another in course of construction. He put up the Syra-ouse creamery on Sierra street, constructed part of the Quinn & Hartung building and erected the Gruber house on Mill street. He built the Senator Westerfield house on Mill street. Mr. Holesworth is at present constructing the fire department building. Among other works he did was to remodel the Nathan building.

Felix Vogliotti put up a model stone residence on Mill street.

L. Avanzino has begun the erection of a big two-story brick on Virginia street near Second.

S. Jacobs is another Renoite that built a new house this year.

Mrs. Dawson and John Shaver had two pretty cottages built in O'Connor's addition.

The outlook for 1900 is excellent. The town is growing steadily and, although a South California boom is not expected, we in the building trades look for bigger business next year than ever before in the history of the town.

CONTRACTOR.

Oxydized Specie.

Everybody knows when "Rusty Coin" goes through town and people with sawed edges nerves pray unceasingly that he may speedily get promoted, fired or translated from this wicked world.

"Rusty" pulls a freight train between Wadsworth and Truckee. His hand never leaves the whistle cord and the mournful double discords he produces call forth weeping, wailing, swearing and gnashing of teeth from the entire populace along the line of the road.

Yesterday he steamed through town playing "The Heart Bowed Down" in E minor. A large delegation of citizens greeted him with a shower of brickbats and ballast.

The Kronic Kicker is preparing an armful of incendiary bombs which he believes will result in abating the nuisance.

Fish, Flesh and Fowl.

Westerners "born and bred" were at a loss last evening to know what those long, black things are in the Washoe lunch counter window, but the man who spent his boyhood near an eastern stream, recognized them immediately as the eels he used to catch dark nights with outlines. En passant, it might be mentioned that there is the finest collection of game in the window that ever was brought to this city.

Increased Force.

Manager O'Tools of the Pyramid mines returned from San Francisco yesterday. He will increase the force at the mines. Several more miners were employed by him yesterday.

The outlook in the Crown Prince and J. & K. tunnels is very promising.
